More Murders in Jeffersonville-Great Excitement—One of the Parties Arrested. The fact that crime is greatly on the increase throughout the country no one will as the gas' gwine to git de best an' de fust ob attempt to deny who reads the daily papers published in different sections of the country: for searce y an exchange comes to us that is not filled with robberies, rape, "It'll take me dat much nearer home."

The police force of our city is not sufficient for the emergency, and every effort should be used to have matters so arranged that occurrences of this kind in the city might be suppressed on the instant. For some time past our little sister, Jeffersonville, has been in a state of feverish excite ment, and persons hardly dare to appear on the streets after nightfall, so daring have they become in their acts of villainy. Only a few days since the bodies of two murdered men were found on the rail-

road track a few miles from the city,

which had undoubtedly been placed there

This was but the commencement of other crimes which would follow. On Thursday night two more person were slain in cold blood in that hitherto quiet city. The first murder to which our attention was called was that of a German named Williams, who was shot by Page, a member of the 123d negro infantry, who are doing duty at the commissary depot at that place. There are near the depot : number of cars belonging to the Govern ment. Williams, who was under the influence of liquor, got into one of the cars for the purpose of lying down, without meaning any harm. The negro, Page who was on guard, observed him in the car and ordered him to get out. The man attempted to comply with the command. but, before he had time to leave the car the negro guard fired, the ball taking effect in the breast of Williams, causing almost instant death. Our informan states that the negro has been placed under arrest and will be tried.

The body of a murdered man, whose name we were unable to learn, was found on the State road about one mile from the city early yesterday morning. No clue can be obtained as to who committed the owardly and bloody act, but there is no doubt that the murder was committed for the purpose of robbery.

There is almost a perfect reign of terro in the little town of Jeffersonville, and while the troops that are now there are encamped around the city, a sufficient guard should be placed there to keep order and protect the citizens from a repetition of such outrages as these. We are assured that the authorities are using every effort in their power to bring the authors of these diabolical murders to justice. The negro who has been arrested will have a speedy trial, and if the facts as stated are true, punishment will no doubt soon follow the

The following arrests were made Friday by the military authorities: Nat. Berryman, drunk; Dan. Johnson. stealing a horse; A. G. McCullough. drunk and disorderly; John Rogers and Charles Roberts, raising a muss, and Tom Morton and Spence Taylor for fighting.
